

Fact Sheet

www.internationalbiotrust.com

SEPTEMBER 2004

The investment objective of International Biotechnology Trust plc ('IBT') is to achieve long term capital growth by investing in high growth, development stage biotechnology companies that are either quoted or unquoted. IBT invests in companies that we believe are undervalued, with experienced management and strong potential upside through the commercialisation of a product, device or enabling technology.

INVESTMENT MANAGER AND SECRETARY

Schroder Investment Management Limited

INVESTMENT ADVISER

SVLS is a life sciences focused venture capital adviser with offices in London, Boston and San Francisco. SVLS advises and or manages four funds with total capital of approximately \$900m which invest in life science companies at all stages of development including biotechnology, pharmaceuticals, medical devices and instruments, healthcare IT and services companies. SVLS has 22 professionals who are able to provide hands on scientific, advisory and financial support to their portfolio companies.

Funds advised by Schroder Ventures have invested in the life sciences industry since the early 1980s and to date have backed over 130 companies internationally. SVLS was established in 1993 and became fully independent of Schrodgers in 2001.

Nothing in this document represents investment advice and is therefore not a recommendation to buy or sell shares. The value of investments, and the income from them, may go down as well as up, and is not guaranteed, and investors may not get back the full amount invested. Exchange rate changes may cause the value of overseas investments to rise or fall.

Investors should bear in mind that investment in biotechnology shares can be subject to risks not normally associated with more developed markets or stocks. Investing in the biotechnology sector carries some particular risks and investment in IBT should be regarded both as long term and as carrying a high level of financial risk.

In addition, there is no guarantee that the market price of shares in investment trusts will fully reflect their underlying net asset value and it is not uncommon for the market price of such shares to trade at a substantial discount to their net asset value.
