Investors should bear in mind that investment in biotechnology shares can be subject to risks not normally associated with more developed markets or stocks. Investing in the biotechnology sector carries some particular risks and investment in IBT should be regarded both as long term and as carrying a high level of financial risk.

In addition, there is no guarantee that the market price of shares in investment trusts will fully reflect their underlying net asset value and it is not uncommon for the market price of such shares to trade at a substantial discount to their net asset value.
