

IBT Factsheet

www.internationalbiotrust.com

MAY 2008

The Company's investment objective is to achieve long term capital growth by investing in high growth, development stage biotechnology companies that are either quoted or unquoted. IBT invests in shares of companies that are considered good value with experienced management and strong potential upside through the development and/or commercialisation of a product, device or enabling technology.

Fund Manager's April Market Review

In April, the Nasdaq Biotechnology Index was up 2.5% on the month and the Russell 2000 Growth Biotechnology Index (focused on small and mid capitalization stocks) closed up 5.8%, outperforming the S&P 500 which was up 4.9% (all in sterling terms).

The rise in the Russell 2000 Growth Biotechnology Index was driven by (another) Japanese acquisition of a medium sized US company, Millennium Pharmaceuticals, which was acquired by Takeda for \$8.8bn.

The large caps posted generally good quarterly earnings numbers across the board. However, Genentech and Biogen Idec shares were hit after announcing that a late stage trial, evaluating Rituxan in Lupus, failed to meet its primary endpoint.

The American Society of Clinical Oncology (ASCO) will host its annual meeting this year at the end of May, with the abstracts posted in mid May. Strong data announcements have been a positive for the sector in the past.

As at 30th April 2008

Share Price	116.0p

INVESTMENT MANAGER

SV Life Sciences Managers LLP was appointed Manager of IBT on 1 January 2005. Between November 2000 and December 2004, Schroder Ventures Life Sciences as the SV Life Sciences business was then known, was Adviser to the Manager of IBT during that period, Schroder Investment Management Ltd.

SV Life Sciences is a venture capital adviser and manager that makes selected investments in entrepreneurs and management teams.

SV Life Sciences provides finance to businesses at all stages of development and across the human life sciences sector. These sectors range from biotechnology & pharmaceuticals to medical devices & instruments, to healthcare information technology and services. SV Life Sciences currently advises or manages five funds with capital commitments of approximately \$1.6 billion which primarily invest amounts of between \$1m and \$20m in North America and Europe, but will consider innovative investments in other regions. Our team of 28 professionals has a diverse, complimentary set of skills and experience that allow us to tailor a team to work with almost any life sciences business.

SV Life Sciences is a trading name of SV Life Sciences Managers LLP, which is Authorised and Regulated by the Financial Services Authority.

Nothing in this document represents investment advice and is therefore not a recommendation to buy or sell shares. The value of investments, and the income from them, may go down as well as up, and is not guaranteed, and investors may not get back the full amount invested. Exchange rate changes may cause the value of overseas investments to rise or fall.

Investors should bear in mind that investment in biotechnology shares can be subject to risks not normally associated with more developed markets or stocks. Investing in the biotechnology sector carries some particular risks and investment in IBT should be regarded both as long term and as carrying a high level of financial risk.

In addition, there is no guarantee that the market price of shares in investment trusts will fully reflect their underlying net asset value and it is not uncommon for the market price of such shares to trade at a substantial discount to their net asset value.

The Schroder ISA is a non CAT standard ISA. Schroder Investment Management Ltd and SV Life Sciences Managers LLP are Authorised and Regulated by the Financial Services Authority.
